Earning per Share (annualized): NPR 20.88 a. Market Value per Share b. Price Earning Ratio 11.50 d. Liquidity 26.71%\* Return on Average Total Assets 1.58% e.

 ${}^{\star}\text{Calculated as per NRB circular 27/066/67 relating to amendment in Capital Adequacy framework form \#8.}$ 

### **Management Analysis**

Networth per Share

- There have been changes in the Bank's capital corresponding to the 5% bonus share issuance in accordance with the decision made by 11th AGM. Changes in reserve, income and liquidity position are in line with the growth in business volumes. Reserves have grown through retention of profits.
- The Bank aims to achieve its financial goals through sustainable profitability and measured growth in balance sheet size. Our business models remain robust and we continue to seek sound growth.
- There were no incidents, which have had impact on reserve, profit or cash flow position of the Bank during the quarter under review.

## Details relating to legal action

- Case filed by or against the organized institution during the quarter There is no other major case except those arising in normal course of banking business related to lending and income tax.
- Case relating to disobedience of prevailing law or commission of criminal offence filed by or against the Promoter or Director of organized institution - No such information has been received.
- Case relating to financial crime filed against any Promoter or Director No such information has been received.

## Analysis of share transaction and progress of organized institution

- Case filed by or against the organized institution during the quarter There is no other major case except those a. arising in normal course of banking business related to lending and income tax.
- b. Case relating to disobedience of prevailing law or commission of criminal offence filed by or against the Promoter or Director of organized institution - No such information has been received.
- C. Case relating to financial crime filed against any Promoter or Director - No such information has been received.

### Analysis of share transaction and progress of organized institution

- Management view on share transaction of the organized institution at securities market Some effect of the overall decrease in the stock index has been observed in the institution's share as well in the past. However since price and transaction of the bank's shares are being determined at Nepal Stock Exchange through open share market operations, management view on this is neutral.
- Maximum, minimum and last share price of the organized institution including total transaction number of shares and days of transaction during the quarter.

Maximum Price: NPR 294.00 Minimum Price: NPR 230.00 Last Price: NPR 240.00 Transaction volume: 46,602 shares Days of transaction:

### 5. **Problems and Challenges**

- Recruitment and retention of quality manpower
- Increasing cost of operation

- Competition both on maintaining lending yield and mobilizing deposits at lower cost
- Rapidly deteriorating business environment.
- Volatility in the Foreign Exchange rates caused by changes in the global economic conditions
- Unstable local socio-political situation
- Volatile liquidity conditions in the banking industry.
