Loss	174.89
<b>Total</b>	<b>228.24</b>

**j. Segregation of investment portfolio:**

Investment	Amount (NPR Millions)
Held For Trading	-
Held Till Maturity	21,852.15
Available For Sale	2,447.08
<b>Total Investment</b>	<b>24,229.23</b>

### 3. Risk Management Function

- a. **Summary of the bank's internal approach to assess the adequacy of its capital to support all the risks in business and achieve better risk management techniques in monitoring and managing risks**

#### **i. Board and senior management oversight**

Bank management is responsible for understanding the nature and level of risk being taken by the bank and how this risk relates to adequate capital levels. It is also responsible for ensuring that the form and sophistication of the risk management processes is commensurate with the complexity of its operations. A sound risk management process, thus, is the foundation for an effective assessment of the adequacy of a bank's capital position. The decisions made by the management are regularly reviewed by the BOD.

#### **ii. Sound capital assessment**

Another crucial component of an effective ICAAP is the assessment of capital. In order to be able to make a sound capital assessment, the bank has, at minimum, have the following:

- Policies and procedures designed to ensure that the bank identifies, measures, and reports all material risks;
- A process that relates capital to the level of risk;
- A process that states capital adequacy goals with respect to risk, taking account of the bank's strategic focus and business plan; and
- A process of internal control reviews and audits to ensure the integrity of the overall management process.

#### **iii. Comprehensive assessment of risks**

Chief Risk Officer (CRO), along with his team, is responsible for overall risk management of the Bank which includes managing, assessing, identifying, monitoring and reducing pertinent global, macro and micro-economic level business risks that could interfere with Banks objective and goals and whether the Bank is in substantial compliance with its internal operating policies and other applicable regulations and procedures, external, legal, regulatory or contractual requirements on a continuous basis. Further, CRO ensures integration of all major risk in capital assessment process.

#### **iv. Risk Management Committee (RMC)**

Board level risk management committee has been set up under NRB Directive for ensuring/reviewing bank's risk appetite is in line with the policies.

#### **Credit Risk**

The Bank's Credit Policy Guidelines has adopted a Credit Risk Management philosophy that involves a continual measurement.

### **Market Risk**

The Bank has in place Assets Liability Management (ALM) Policy, and Assets Liability Management Committee (ALCO), which monitors risks arising from changes in exchange rates in foreign currencies; liquidity profile of assets and liabilities, investment activities of the bank etc.

### **Operational Risk**

Board and senior management of the bank places high priority on effective operational risk management and adherence to sound operating controls. The Bank has developed and implemented various manuals, operating procedures and guidelines for monitoring and controlling Operational Risks in the Bank.

Most significant steps adopted by the Bank for handling Operational Risks are as follows:

Independent reconciliation department accustomed to conducting daily reconciliation of all agency accounts and Inter-Branch accounts. Transaction Stack System is in place on amount limit basis. Exception and MIS reports are generated by the system on a 'Live' basis, where account activity can be monitored as and when they occur. General Authority schedule is in place to delegate authority to staff across all levels. Independent Internal Audit has been appointed to carry out review of internal controls and compliance. Output in all transactions is checked by a higher authority level. Disaster Recovery Server is in place to ensure full restoration of Bank's data.

### **Other Risk**

In addition to credit, credit concentration, operational and market risk the Bank identifies, assess and monitors other risks such as strategic risk and reputational risks at regular interval.

### **v. Monitoring**

Monitoring and reporting of all risks, including credit, operational and market risks are identified, escalated, monitored and mitigated to the satisfaction of the risk type owner. The risk type owner is responsible for ensuring that all the risks are adequately identified, escalated, monitored and mitigated. The Bank has an adequate system in place for monitoring and reporting risk exposures and assessing how the changing risk profile affects the need for capital. The senior management and board of directors on a regular basis receive the report regarding the risk profile of the bank and its capital needs. All the material risks are identified, measured, monitored and reported by the respective risk type owner.

### **vi. Internal Control Review**

The internal control structure of the Bank is essential for sound capital assessment process. Effective control of the capital assessment process includes an independent

review and involvement of both internal as well as external audits wherever appropriate. The Bank is committed conduct the regular review of its risk management process to ensure its integrity, accuracy, and reasonableness. The effectiveness of the Bank’s internal control system is reviewed regularly by the Board, its committees, Management and Internal Audit.

The Internal Audit monitors compliance with policies and standards and the effectiveness of internal control structures across the Bank through its program of business/unit audits. The Internal Audit function is focused on the areas of greatest risk as determined by a risk-based assessment methodology. Internal Audit reports regularly to the Audit Committee. The findings of all adverse audits are reported to the Chief Executive Officer and Business Heads for immediate corrective actions.

**vii.Assets and Liability Committee (ALCO)**

The ALCO, chaired by Chief Executive Officer, ensures functioning of the banking business in line with the set procedures and processes and recommends for necessary steps to address the risk associated with liquidity, movement in interest rate, exchange rate and equity price and other risks.

**viii.Stress Testing**

Stress Testing is a risk management technique used to evaluate the potential effects on an institution’s financial condition, of a set of specified changes in risk factors, corresponding to exceptional but plausible events. The Bank conducts the stress test on quarterly basis and reports to senior management as well as to Nepal Rastra Bank.

**ix.Maker-Checker Policy**

The Bank has adopted Maker-Checker Policy in all of the transactions. Each and every transaction is entered and authorized in CBS by two different individuals for better control and any deviations are closely monitored. The activities of any personnel can be monitored centrally through an integrated system which helps in minimizing the risk of misconduct.

**b. Types of eligible credit risk mitigants used and the benefits availed under CRM**

SN	Credit Risk Mitigants	Amount (NPR Millions)
1	High Risk Claim	1,152.72
2	Off Balance Sheet Items	700.80
<b>Total Credit Risk Mitigants</b>		<b>1,853.52</b>
